NEW YORK, May 18 .- Flour-Receipte,

Stocks Had a Firmer Tone at the Opening, but Soon Gave Way to a "Bear" Panic. NEW YORK, May 18.-Money on call was easy, ranging from 2 to 5 per cent., the last loan being made at 4, closing offered at 2,

Prime mercantile paper, 5/27 per cent. Sterling exchange was quiet and steady at \$4.88% for sixty-day bills and \$4.88% for

demand. The total sales of stocks to-day were 252,206 shares, including the following: Atchison, 14,129; Delaware, Lackawanna & Western, 6,750; Louisville & Nashville, 15,-330; Missouri Pacific, 5,800; North American, 3.055; Northern Pacific, 4,270; Northern Pacific preferred, 8,550; Richmond & West Point, 4.010; St. Paul, 61,560; Union Pacific, 24,075; Western Union, 3,008.

The principal subject of discussion in Wall street continued to be the European situation and its influence upon the money market here. The same difference of opinion seems to exist as to whether or not the drain of gold to Europe is over. As yet there is no indication of serious alarm over the situation. Undoubtedly the late heavy outgo must place us nearer the end of the movement. The short "bear" panic which existed during the closing moments of Sat-urdsy had entirely disappeared at the open-ing this morning. The traders were arrayed upon the "bears" side, while the "bulls," hoping that the relief from the late London iling would give a panie to the prices again, were inclined to buy at the opening, First prices, therefore, were generally than Saturday's figures, but the impression was soon created that the cliques, in the absence of foreign selling, were doing some of it themselves, and a weak tone was soon deped. The traders being encouraged to make a demonstration against the list, the afternoon saw a serious break in all the stocks, among which the grangers, New England, the Villards, Chicago Gas and some others were prominent. There was also pronounced weakness in Missouri Pacific. The "bears" rely on a continuation of the gold shipment during the balance of this month, at least, and the short interest in all the leading stocks was increased materially. The pressure was begun just after the opening, which was generally higher though irregular, and while little progress was made in the forenoon the whole list gave way sharply after 12 o'clock, and although there were one or two feeble rallies in the late deslings, caused by the covering of shorts, the market finally closed weak at the lowest prices of the day. The whole list is materially lower this evening. Missouri Pacific is down 2 per cent.; Burlington, Pacific Mail, Northern Pacific preferred, 14: New England, 12; Rock Island, St. Paul and Union Pacific

Wanna l per cent. Railroad bonds were again dull, and while sympathizing with the weakness in shares, scored few material losses, those in Reading incomes, Oregon Improvement fives and Atchison incomes being the most prominent. The sales were only \$683,000.

Government bonds have been dull and easy. State bonds have been neglected

each 13s; Atchison, Chicago Gas and Richmond & West Point each 11s, and Lacka-

opening this morning. There were reports 443,000; rye, 402,000 bu, a decrease of 13,000; barley, 551,000 bu, a decrease of 99,000. of more or less severe frosts in northern Illinois and portions of lows, and that in The Foreign Grain Trade. the Muskingum valley, in Ohio, the young LONDON, May 18 .- The Mark Lane Explant had been greatly damaged by freezpress, in its weekly review of the British grain trade, says: English wheats dereported that on account of the conclined la. Foreign wheats were less detinued dry weather in the Northpressed, and showed a fractional improvelate sown wheat had failed ment. Californian was quoted at 44s, and to germinate. Furthermore the arithmeticians in the board had figured out a American red winter at 40s 6d. Corn was steady at the recent fall. Barley, oats, heavy decrease in the visible supply. beans and peas were dull. A bout 250,000 bushels were reported taken at New York for export, and buying orders from abroad, from New York and the TRADE IN GENERAL forthwest were in the hands of brokers. The cables also brought reports of cold

Quotations at Philadelphia, Baltimore, Cinweather and frost in many places in Eucinnati, St. Louis and Other Points. ST. LOUIS, May 18.-Flour strong but famine prices. With all of these bits of enrquiet. Wheat was firm and unchanged at rent intelligence to back up their argu-ments in favor of higher prices, it is not surprising that the "bulls" were enabled to early part of the session, but prices were put prices up; in fact, the surprising part of it is that they did not seize the opportunity to make a more marked advance and strong, advancing gradually and there was an occasional slight set-back, but the tendency was upward until noon, when values that they did not more strenuously resist the subsequent reaction. This, however, rell off only to recover, and the market was steady to the close. No. 2 red, cash, \$1.04 @1.0412; May closed at \$1.0412 bid; July, was only temporary—the result of "short" selling. The raiders, however, became frightened at their own temerity in the face 9734@901sc, closing at 985sc; August, 9614@ 9714c, closing at 965sc; December, 9812@ of the adverse conditions, and the buying-995sc, closing at 99c. Corn opened firm and in of their lines of "shorts" near the close 140 higher than Saturday's close, and conput the price up to about outside figures again. The promulgation of the Wiscontinued to advance until noon, when prices sold off but strengthened again later, and continued firm the balance of the session. sin crop report, which was given a bullish interpretation, helped the later advance. July wheat opened at \$1.011201.02, and No. 2, cash, 59@593sc; May, 5912@60c, closing at 5934c; July, 5612@571sc, closing at 567sc. Oats quiet but firmer; No. 2, cash, lower at 49@4912c; May, 4912c; July, 4412@ quickly advanced to \$1.03\g, became steady, and held for a long time at the advanced figures. It then sagged off to \$1.02\d, but rallied to \$1.03, and closed firm at \$1.02\g, In corn, as in wheat, the "shorts" were at 44%c. closing at 44%c. Rye quiet; No. 2, 88c bid. Barley, nothing doing. Hay duil and unchanged. Bran dull; sacked, 72c. a disadvantage. The weather maps showed Flaxseed unchanged. Butter easier; creamery, 18@20c; dairy, 14@18c. Eggs steady at 18c. Corn-meal steady at \$3.10@3.20. Whisky steady at \$1.18. Bagging and iron cotton ties unchanged. Provisions Offerings by country holders carried the market back to 5734c again, but the rise in wheat lifted it to 5812c. Country traders are now watching fluctuations very closely, firmer but very quiet. Pork, standard mess. \$11.50@11.6212. Lard, 5.50c. Dry-salt meats

4.50; all grades, \$3@4.55. Sheep-Receipts, 120; shipments, 300, Market steady.

INDIANAPOLIS MARKETS. Trade Opens Brisk with Prices Easier on

Some Articles. INDIANAPOLIS, May 18.-The week opens with a weak market on a number of articles. Poultry, eggs, butter, oranges, pine apples, cabbage and Irish potatoes are all weak at prices quoted. Strawberries slightly firmer, but will likely drop on increasing receipts within twenty-four hours. In the dry-goods market there is a good deal of activity, but with a flat wool market prices are evidently easier. Eastern papers say of the wool market: "The receipts here are beginning to increase, which goes to show that new wools are beginning to arrive. Some fair transactions in ne California and Territory are reported in the week's business, but as usual such sales are mostly made on terms that are kept private. The general tone of the market is steady, and we have no important changes to record in prices. A steady demand is looked forward to, and as supplies of new wool become larger, the interest of manufactures will also be greater. Within a day or two there have been quite a number of manufacturers on the market, and they have been negotiating on new Territory and California wool. The advices from the West are not very encouraging to the trade here. High prices are the rule, which are above the parity of seaboard markets. Eastern dealers are not operating largely, believing that values must come down. The flour market is unsettled, prices not being proportionately high with wheat. The hide market is dull. Provisions are moving freely in a jobbing way; prices easy at the revision of Monday.

The local market was in slightly better tone than on Saturday, No. 2 red wheat advancing 12c, and being firm at that quotation. The other cereals rule quiet and easy in price. Track bids to-day ruled as fol-

Wheat-No. 2 red, \$1.031g; No. 3 red, \$1; rejected, 85@95c; unmerchantable, 65@75c. Ella M., widow of William H. Claus; Lewella J., widow of William T. Vincent; Sarah, widow of Joseph Campbell; Mary E., widow of David H. Kent; Sarah Jane, widow of Alexander Roberts.

Sheep are particularly subject to parasites, both internal and external. Feed them occasionally a little hard-wood ashes or finely pulverized tobacco, which wili free them from worms and improve their general health. In addition to this dip them in some approved sheep-dip whenever the occasion demands.

it is often a question whether to feed the cows a grain ration while they are on good spring and summer pasturage. A few quarts of grain each day will increase the quantity and improve the quality of the milk during the summer, and will pay for itself by laying the foundation for putting on a good amount of flesh and fat by a few weeks of extra feeding next fall or in the early winter.

The cabbage butterfly will now begin work, and it is one of the most annoving pests that attacks crops. The female lays her eggs on the under side of the plants. The eggs hatch in about a week and the young asterpillars eat small, round holes through the leaves. They sometimes destroy whole fields of cabbages, Dalmatian insect-powder dusted on the plants is one of the best remedies.

As there are no two farms alike, it is a mistake to attempt to follow the practice of some neighbor until you have compared the advantages and disadvantages of your farm with his. Soils vary when but a short distance apart, and the exposure, or "lay of the land," is a factor in the matter. Each farmer should aim to learn the requirements of his soil and regulate his mode of management accordingly.

It does not pay to get into a panic over the low prices of any staple farm product, and so rush your stock on the market at a loss. The enormous destruction of hogs by premature slaughter during the last few months has resulted in the markets becoming bare, and quotations for May deliveries of hogs in Chicago have advanced greatly in price over those prevailing only a little time ago, and at present the outlook is that summer hog products will be scarce and

As a catch crop for winter forage, corn may be sown at almost any time up to July, upon any piece of land that has not been otherwise utilized. It may be sown with a grain drill, closing every other hoe, quite thickly in the row, and allowed to grow until frost. It will make thus an enormous amount of good feed per acre, and if cut and properly cured it is almost equal to timothy hay. The close planting prevents the development of much tough, woody stalk.

Truck gardeners upon the upper part of Manhattan island use ordinarily more fertilizer upon a single acre than the majority of one-hundred-acre farms receive. From seventy-five to one hundred tons of manure Sept..... 6.72½ 6.75
